CAREER OBJECTIVE

As a dedicated and highly motivated **BCA student** and aspiring **Software Developer**, I am deeply passionate about creating efficient, scalable, and user-centric digital solutions. I possess a solid foundation in core programming principles, relational databases, and modern web technologies including HTML, CSS, JavaScript, and PHP. My goal is to leverage my technical expertise and analytical mindset to contribute to innovative software development projects in a fast-paced IT environment. I am eager to apply my problem-solving abilities to tackle complex engineering challenges while continuously learning and adapting to emerging industry trends. I am looking for an opportunity to work within a collaborative professional team where I can drive meaningful impact through high-quality code and grow into a proficient full-stack developer.
